This list is organized by country and details the accepted competence levels for experience, boat size and distance-from-shore-sailing for the various certificates accepted.

### How to prepare your charter

A copy of all sailing certificates must be sent to the base and received at least 2 weeks before the start of the charter. It is also required that skippers take their original copies of certificates with them, as they will be asked to present them with their boat paper to the port authorities on arrival. It is essential that you take your original skippers license or certificate with you in the event that the Port Authorities ask you to present it to them. If you do not have an official sailing license, by law the team at base will not be able to allow you to charter without an officially certified skipper onboard.

*What if I do not have a license ? If you do not hold a recognized sailing license, we will assist you in finding an accredited program. In Croatia, Sunsail Agana RYA Sailing School runs RYA Day Skipper and RYA Competent Crew courses. Completion of the RYA Day Skipper Course will also guarantee you the ICC on application without any further courses or exam.*
